

# OMOSUYI OLAWOLE

## Full Stack Web Developer

[omooladev@gmail.com](mailto:omooladev@gmail.com) | +234 905 567 5574

Github: <https://github.com/omooladev>

LinkedIn: <https://www.linkedin.com/in/omosuyiolawole>

## PROFILE

---

An Enthusiastic Full Stack Web Developer with passion for learning and applying new technologies to design efficient and scalable products. Proficient in both front-end and back-end development, with expertise in the MERN stack (MongoDB, ExpressJS, ReactJS, and NodeJS). Demonstrated capacity to adapt and rapidly acquire new technologies through independent project work. Eager to learn and continuously improve, leveraging all available resources to overcome challenges.

## KEY SKILLS

---

**Frontend:** HTML 5, CSS3-SCSS, JavaScript, Typescript, React, Redux, Webpack

**Backend:** Node.js, Express.js, REST APIs.

**Database:** MongoDB.

**Others:** Git/Github, Heroku, Netlify, Render, Vercel, Cloudinary.

## PROJECTS

---

### FLOWNEWS

 [flownews.netlify.app](https://flownews.netlify.app)

 [github.com/flownews](https://github.com/flownews)

An interactive news platform that provides users with up-to-date global news and offers registration for contributors. This feature enables users to share their own content and local events, ensuring continuous updates for all.

- **Language | Technologies:** HTML5, CSS3, SCSS, ReactJS, NodeJS, ExpressJS, MongoDB.

### SHOPCOMMERCE [shopcommerce.onrender.com](https://shopcommerce.onrender.com) [github.com/ShopCommerce](https://github.com/ShopCommerce)

An e-commerce platform enabling users to browse and purchase products, with administrative capabilities for adding, editing, and deleting products

- **Language | Technologies:** HTML5, CSS3, SCSS, Typescript, EJS, NodeJS, ExpressJS, MongoDB, Cloudinary

### PORTFOLIO WEBSITE [omooladev.vercel.app](https://omooladev.vercel.app) [github.com/omooladev-portfolio](https://github.com/omooladev-portfolio)

This website serves as my personal portfolio, showcasing a comprehensive collection of projects I have completed and am currently working on.

- **Language | Technologies:** HTML5, CSS3, SCSS
